Governance

Members approved and adopted Table Tennis North's revised Bylaws, modernizing the organization's governance structure. The new bylaws simplify Board operations, introduce a more flexible governance model, permit electronic meetings and voting, and establish a fixed quorum of four members for future Annual and Special General Meetings.

Looking Ahead

The updated bylaws provide a strong foundation for the continued growth of Table Tennis North, supporting transparent governance, increased member participation, and efficient administration as the organization continues to develop table tennis across the Northwest Territories.
